

Confirm immediate delivery of your product and turn a customer's "maybe" into a "yes." It's easy with GoBiz XL Inventory. The on-demand solution from GoBiz Solutions is specifically designed for small business. Whether you have one or many locations, sites, or trucks, GoBiz Inventory XL maintains accurate inventory information and absolute inventory control. Turn your assets into cash faster, better protect your margins, and see your return on investment increase when you manage your inventory more efficiently. It's simple, affordable and easily accessible with GoBiz.

Never tracked inventory before? It's a snap to start with GoBiz XL Inventory. To begin, enter inventory as you need, purchase or sell it. With a click on the Inventory Dashboard, you can enter all the product specifications, stock levels, and pricing. If your service personnel stock inventory in their trucks or at their home offices, you can track that inventory as well so your inventory doesn't get lost. And with a simple GoBiz XL Inventory query, you'll instantly know how much product you have, where it is, and what kind you have. It's money in the bank.

Plus, you can take full advantage of GoBiz XL Inventory's seamless integration with Sales and Service. With the Web-based GoBiz XL, information is only entered at one point and never has to be re-entered, corrected or upgraded by various departments or personnel with different roles. This prevents costly mistakes and loss. GoBiz XL improves workflow across company functions.

### Features

#### ➔ Specifically designed for small business

No other solutions provide the functions that only a small business needs.

On-demand solution for access anytime, anywhere there's Internet.

Work never stops for small business. Since GoBiz XL Inventory is Web-based, you can check your inventory status anytime and anywhere there's Internet access.

Inventory Manager Home Page

The screenshot displays the 'Inventory Manager - Home Page' interface. At the top, there is a navigation bar with 'Feedback', 'Help', 'Admin', and 'Logout' links. Below this, the 'Business Area' is set to 'Inventory' and the 'Function' dropdown menu is open, showing options like 'All Inventory Orders', 'All Products', 'All Warehouses/Location', 'HomePage Inventory Manager', 'Inventory Issues Detail', 'Inventory Issues Summary', 'Inventory Valuation', 'On Hand, Transfer, Adjustment', 'Sales Orders Fulfillment', and 'Transaction Log'. The main content area is divided into two sections: 'Inventory Orders' and 'Inventory on Hand'. The 'Inventory Orders' table has columns for Date, Comments, Originator, Supplier, Status, and a 'Receive' button. The 'Inventory on Hand' table has columns for Part, Warehouse, Aisle, Row, Bin, and Qty.

Date	Comments	Originator	Supplier	Status	Receive
02/03/2006		User, Inventory	Company2	Ordered	Receive
02/03/2006		User, Inventory	Company5	On Hold	Receive
